

Foldable LED Poster | 92"

Vertical Foldable LED Advertising Poster featuring HD displays and seamless splicing. Its foldable structure drastically cuts storage and shipping volume, enabling simple assembly and low maintenance. Perfect for shopping malls, commercial streets, offices, exhibition halls and libraries.

92"

Core Features

COB HD Display

Outperforms fragile conventional SMD screens. Equipped with advanced COB (Chip-On-Board) packaging technology, it delivers a game-changing display solution for premium indoor commercial scenarios.

Core Features

Foldable Structure

Modular foldable construction allows the entire screen to fold flat and minimize occupied space during transit and storage. Units can be freely combined to create multi-angle display layouts with zero tools required.

Core Features

Full Interface Coverage

Full I/O Interface Configuration
Full-featured ports including HDMI, USB, Type-C
and RS232

Core Features

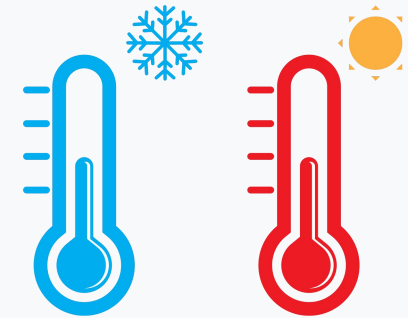

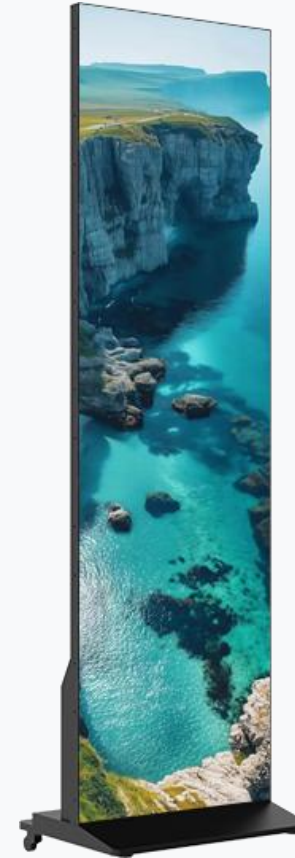

Mobile Support

Smart LED Advertising Poster | Deploy & Display
Anywhere

Core Features

Temperature Resistance

Operating temperature range: 0°C to 38°C,
Suitable for commercial environments, with stable
performance

Core Features

Cloud DMS Digital Signage Management System

Full centralized control accessible via our cloud-based DMS platform. Easily manage all your display networks through our professional Digital Signage Management System. Supports full remote operations: screen sync, parameter configuration and instant content release, delivering consistent, efficient real-time operation for all terminals anywhere.

Specifications

Screen Size	92"
